

PRODUCT LEAFLET

Intrinsically safe analog heat detector 2841

FEATURES

- Addressable intrinsically safe heat detector for fire detection in hazardous areas
- IP66/67 for outdoor use or in humid areas
- Up to 20 detectors can be connected to each IS barrier unit
- Three standard heat detection algorithms available

DATA

-  - 10 to +55 °C
-  < 95%
-  Ø102x65 mm
-  325 g
-  IP66/67
-  Red LED
-  II 1 G Ex ia IIC T5 Ga
-  Grey White Black

GENERAL

- Tested and approved according to EN54-5
- ATEX certificate: DEKRA 11ATEX0107
- CPR: 2831-CPR-F2749
